

REPORT OF FINDINGS

Description of Goods &/ or Services:	Phase I monitoring re-construction of 75 fully damaged houses (Tsunami Project)
Client:	Children Action Rue de La Terrassiere 14 1207, Geneva Switzerland
Place of Inspection:	Seenigama, Hikkaduwa, Sri Lanka.
Dates of Inspection:	19 th October to 02 nd December 2005
Service Required:	On-site supervision, monitoring works in progress, quality & timing of construction, allocation of houses vs. designated beneficiaries

On instructions received from Children Action, through SGS Aid Efficiency Services in Geneva, we attended at the above place of inspection in order to monitor the re-construction of 75 fully damaged houses.

From commencement to completion of the reconstruction process, we inspected from time to time these 75 houses. Based upon our inspection findings we confirm compliance with the specifications provided by the client.
